

CAC-1307 QUICK INSTALLATION GUIDE

HDMI™ Active 4K60Hz Repeater F/F

Thank you for purchasing our CAC-1307 Product. After unpacking the product, please make sure you have all the items provided and checked for any damages. In case of any missing/damaged parts please inform your supplier immediately.

You should have:

- 1x CAC-1307 HDMI™ Active 4K60Hz Repeater F/F
- 1x USB 2.0 Type-A to Micro USB Cable of 1 m / 3.28 ft(for External Power)
- QR Code for downloading the Quick Install Guide (QIG)

The Club 3D CAC-1307 HDMI™ Active 4K60Hz Repeater extends the length of any HDMI™ cable by regenerating the HDMI™ signal before it sends the outputs to the HDMI™ monitor or projector. The active HDMI™ repeater will clean out the digital noise (sparkles) in your picture. The input of the HDMI™ active repeater is connected with a long HDMI™ (male to male) cable from the HDMI™ device like DVD player or Satellite set top box with a HDMI™ output port. The HDMI™ active repeater output is connected to a second HDMI™ (male to male) cable to go from the output to any HDMI™ display or projector with a HDMI™ connector. The unit is placed as near as possible to the display(max. distance 5 m/16.4 ft) to remove any noise that has been generated by a long HDMI™ cable.

4K60Hz

USB 2.0 Type-A to Micro USB Cable of 1 m / 3.28 ft is **included**.

Operation Procedures

1. Connect the HDMI™ source and HDMI™ display respectively to the input and output ports of the product through HDMI™ Male / Male cables.
2. Connect a DC 5V power adapter to the micro USB port of the product with the supplied USB2.0 Type-A to Micro USB Cable.
